

St. Joseph's Primary School

Strangford

First Aid Policy

Reviewed May 2023

Policy Statement

The Principal and Board of Governors of St. Joseph's Primary School accept their responsibility under the Health and Safety (First Aid) Regulations (Northern Ireland) 1982 and acknowledge the importance of providing First Aid for employees, children and visitors within the School.

The staff of St. Joseph's P.S recognise their statutory duty to comply with the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (Northern Ireland) 1997 and agree to abide by the EA SER procedure for reporting accidents.

Introduction

'First Aid is the initial assistance or treatment given to someone who is injured or suddenly taken ill' (The Joint First Aid Manual 8th Edition). Staff administering First Aid should seek to assess the situation, protect themselves and the casualty from further danger, deal with any life threatening condition and where necessary obtain medical assistance or refer the casualty to hospital as quickly as possible.

Statement of First Aid Provision

The School's arrangements for providing First Aid will:-

- Place a duty on the Principal and Board of Governors to approve, implement and review the First Aid policy;
- Place individual duties on all employees;
- Report and record accidents using relevant form to the EA South Eastern Region;
- Record all occasions when First Aid is administered to employees, pupils and visitors.
- Provide equipment and materials to provide First Aid treatment;
- Make arrangements with Education Authority to provide First Aid training to employees, maintain records of training and review annually;
- Establish a procedure for managing accidents in school which require First Aid treatment;
- Provide information to employees on the arrangements for First Aid;
- Undertake a risk assessment of the First Aid requirements of the School and review on a regular basis;
- Use the information from the risk assessment of First Aid to determine the number and level of trained staff and also any additional requirements (eg specialised training for children with particular medical needs);
- Notify parent/guardian that first aid treatment was given to the child.

Arrangements for First Aid

The School will provide materials and equipment and facilities to provide First Aid. The First Aid Kits in the School are located in the staffroom, alongside an updated First Aid Manual.

A standard First Aid Kit will contain the following items:

- 20 individually wrapped sterile adhesive dressings assorted sizes
- 4 triangular bandages
- 2 sterile eye pads
- 6 safety pins
- 6 medium wound dressings
- 2 large wound dressings
- 3 extra large wound dressings
- 1 pair of disposable gloves

The contents of the Kits will be checked on a regular basis by both Miss McGrattan and Mrs Jacqueline Rooney, the school's trained First Aiders.

Before undertaking any off site activities the level of First Aid provision will be assessed by the Principal and at least one First Aid Kit will be taken along. This will be included in a Risk Assessment carried out prior to the trip. A First Aid Kit will also be taken to our Forest School for our weekly Forest Friday sessions.

Information on First Aid Arrangements

The Principal will inform all employees in the school of the following:-

- The arrangements for recording and reporting of accidents;
- The arrangements for First Aid;
- Those employees who are qualified First Aiders;
- The location of the First Aid Kits.

In addition the Principal will ensure that signs are displayed throughout the School providing the following information:-

- The names of employees with First Aid qualifications;
- Location of the First Aid Boxes.

All members of staff will be made aware of the School's First Aid policy. No member of staff should attempt to give First Aid unless they have been trained.

Accidents involving bumps to a Pupil's head

The consequence of an injury from an accident involving a bump or blow to a pupil's head is not always evident immediately and the effects may only become noticeable after a period of time.

Where emergency treatment is not required a 'Head Bump' letter will be sent home to the parent/guardian and a copy will be retained in the pupil's folder.

Transport to hospital or home

The Principal, in discussion with the trained First Aiders, will determine the appropriate action to be taken in each case. Where the injury requires urgent medical attention an ambulance will be called and the pupil's parent or guardian will be notified immediately. If hospital treatment is required, then the pupil's parent/guardian will be called for them to take over responsibility. If no contact can be made with parent/guardian or other designated emergency contacts then the Principal may decide to transport the pupil to the hospital, along with a member of staff trained in First Aid (only when deemed safe to move the casualty and that they are fit to travel by car- First Aider and Principal will make a decision based on the nature of the child's injury)

Where the Principal makes arrangements for transporting a child then the following points will be adhered to:-

- Only staff cars insured to cover such transportation will be used;
- No individual member of staff will be alone with the pupil in a vehicle;
- A second member of staff will be present to provide supervision of the injured pupil.
